

University Admit Eligibility Predictor

TEAM - 4

Objective

The main objective of the project is to create and train a model to predict a student's chance of getting into a particular university based on the parameters such as decent score, a SOP (statement of purpose), or a letter of reference, and other things.

Problem

One of the common hurdles among students is that they often get stranded about what's next. They are often worried about their chances of admission into University. The existing solutions rather focus on the universities, what they offer and students can go through all they want about the universities. But predicting university entrance, on the other hand, might be extremely challenging because students are unaware of the admission standards.

Solution 1

A model which predicts the admission and suggests relevant cues to improve the student's profile or by suggesting to take loans or take up extra courses to make upto the expectations.

Product Features

- **TEXT FIELDS TO FILL IN THE SCORES AND OTHER REQUIRED PARAMETERS**
- **LOANS AND SCHOLARSHIPS CAN BE TAKEN**
- **COURSES TO TAKE UP TO IMPROVE PROFILE**
- **COUNTRIES AND UNIVERSITIES**

Solution 2

A model for students to invest time in self-introspection and research to discover potential universities offering the program that aligns with your interests.

Product Features

**LISTS OUT NUMBER OF
UNIVERSITIES AND THEIR
BROCHURES**

**UNIVERSITY SPECIFIC
SCHOLARSHIPS AND
COURSES**

**CHOOSING UNIVERSITIES
THAT SUIT STUDENT'S
PROFILE**

Solution 3

A model which lets students' to fill the interests and academic excellence to predict the admit percentage into every university.

Product Features

- **SPECIFIC DETAILS ABOUT
THE COURSES AND
UNIVERSITY BROCHURES**
- **LOANS AND SCHOLARSHIPS
CAN BE TAKEN**
- **COURSES TO TAKE UP TO
IMPROVE PROFILE**
- **APPROX. PERCENTAGES TO
GET INTO DESIRED
UNIVERSITIES**

Model

Our team's vote for the above three models.

Thank you
